NOTICE

Weight and balance or operating limitation changes shall be entered in the appropriate aircraft record. An alteration must be compatible with all previous alterations to assure continued conformity with the applicable airworthiness requirements.

8. Description of Work Accomplished

(If more space is required, attach additional sheets. Identify with aircraft nationality and registration mark and date work completed.)

- 1. Removed existing upper/lower round tailwires, 4 total, from rudder to stabilizer, and stabilizer to lower fuselage.
- Installed 4 new stainless steel, oval flat, rolled threaded end, tail wires manufactured by McWhyte Wire Co., Kenosha, Wisconsin, in accordance with adjustment instructions as indicated in the 1953 Piper Owners Manual.
- 3. No significant change in weight balance noted.
