Service Letter No. 209

August 18, 1953

To: All Distributors and Dealers

Subject: Navigation Light Switch

Models Affected: All Models

The navigation light switch on the PA-20 and PA-22 production airplanes has been changed to incorporate the use of a heavy duty switch, Piper part number 484 575, manufactured by the Ohmite Manufacturing Company.

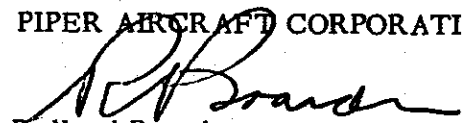

This new heavy duty switch is available as a service replacement for all models in service and it will be furnished when the following parts are requested:

493 130  
484 575  
10928-00  
11728-00  
12325-00  
12325-02  
12325-03  
91359-00

Switch number 484 575 currently lists at \$5.50\*\*, which will necessitate an increase in the price of parts 10928-00, 11728-00, 12325-00, 12325-02, 12325-03 and 91359-00.

Very truly yours,

PIPER AIRCRAFT CORPORATION
