FOR ALL PA-22 SERIES AIRCRAFT

The nose wheel oleo boot assembly, part number 14087-00, unit retail price \$1.72, is still available.

The installation of this boot will reduce the possibility of moisture accumulating between the oleo assembly and the oleo housing. This accumulation of moisture may freeze during winter operation and restrict the steering operation of the nose gear.

The artificial street controlled value out the *** \$2 to 37 hours at \$4.00 to 15.00 hours at \$4.00 hours at \$4.
